# The Church Working Right

The CCLNetwork is responding to this crisis in our churches by launching The Church Working Right, a comprehensive model that will help you lead your church to make a strategic shift in five key areas of church health:

- Identity: A biblical community that fully embodies the *ekklesia* of Jesus
- Leadership: Pastoral leaders who minimize self, prioritize the mission, and empower members to execute effective and relevant ministry
- Engagement: A congregation that is equipped, empowered, and deployed to pursue Christ's character and mission
- Culture: Values and norms that promote growth, unity, relevance, and effectiveness
- Evangelism: Believers who actively pray for and engage opportunities for disciple-making

TCWR Seminar will present data, biblical principles, and the assessment tools, resources, and coaching solutions that are specially designed to position and empower your congregation to fulfill the mission in these extraordinary times.
